## Project Requirements and Description

**Requirements to submit AOI (all answers must be "yes" to proceed)**

<b>A comprehensive review of previously published data has been completed</b>	Yes
<b>The specific aims are clear and focused</b>	Yes
<b>The investigator has appropriate experience and expertise to develop the concept proposal; if not, has identified a mentor or senior co-investigator.</b>	Yes
<b>The investigator agrees to develop an initial draft of the concept proposal within 6 weeks of approval of the AOI and to finalize the concept proposal within 6 months</b>	Yes

**Project Title** Sociodemographic Differences by Colorectal Cancer Screening Status Among High-Risk Survivors of Childhood Cancer

### Planned research population (eligibility criteria)

The proposed analyses will use data from participants identified for the ASPIRES study (N = 1,422) based on responses to the CCSS Follow-up 7 questionnaire. Participants will be categorized into three groups: (1) individuals ineligible for participation due to being up-to-date with colorectal screening at initial assessment (n = 197); (2) individuals who completed the eligibility survey but were subsequently determined to be up-to-date with screening and therefore not eligible (n = 142); and (3) individuals who completed the eligibility survey and were eligible and invited to participate in the study (n = 315).

For analytic purposes, group (1) and (2) will be combined to represent participants who were up-to-date with colorectal cancer screening and compared with those eligible for study participant (group 3), who were not up-to-date with screening.

### Proposed specific aims

Aim 1: Describe sociodemographic characteristic by colorectal cancer screening status (up-to-date vs not up-to-date) among high-risk survivors of childhood cancer.

Aim 2: Identify sociodemographic factors associated with being up-to-date with colorectal cancer screening among high-risk survivors of childhood cancer.

Will the project require non-CCSS funding to complete?

No

If yes, what would be the anticipated source(s) and timeline(s) for securing funding?

Does this project require contact of CCSS study subjects for:

Additional self-reported information	No
Biological samples	No
Medical record data	No

If yes to any of the above, please briefly describe.

What CCSS Working Group(s) would likely be involved? (Select all that apply)

	Primary	Secondary
Second Malignancy	✓	
Chronic Disease		
Psychology/Neuropsychology		
Genetics		
Cancer Control	✓	
Epidemiology/Biostatistics		✓

## Outcomes or Correlative Factors

	Primary	Secondary	Correlative Factors
Late Mortality			
Second Malignancy			

## Health Behaviors

	Primary	Secondary	Correlative Factors
Tobacco			
Alcohol			
Physical Activity			
Medical Screening	✓		
Other			

If other, please specify

## Psychosocial

	Primary	Secondary	Correlative Factors
Insurance			✓
Marriage			✓
Education			✓
Employment			✓
