**Project Title** A comparison of mortality and morbidity in Hodgkin's Survivors of contemporary therapy

**Planned research population (eligibility criteria)** Hodgkin lymphoma survivors in expanded cohort and in initial cohort

**Proposed specific aims** 1) To characterize the overall and cause specific mortality of childhood Hodgkin lymphoma 5 year survivors who were treated between 1987 and 1999 2) To compare the incidence of second malignant neoplasms and of serious cardiovascular conditions in the expanded cohort of survivors to that of the legacy cohort of HL survivors in the CCSS 3) To evaluate risks of mortality in survivors of HL treated between 1987 and 1999

**Will the project require non-CCSS funding to complete?** No

**If yes, what would be the anticipated source(s) and timeline(s) for securing funding?**

---

Does this project require contact of CCSS study subjects for . . .

---

**Additional self-reported information** No

**Biological Samples** No

**Medical record data** No

**If yes to any of the above, please briefly describe.**

---

What CCSS Working Group(s) would likely be involved? (Check all that apply)

---

**Second Malignancy**

Primary - No

Secondary - Yes

**Chronic Disease**

Primary - Yes

Secondary - Yes

**Reproductive**

Primary - No

Secondary - No

**Neurologic**
