B. SKIN CANCER SELF-CHECKS

For the next set of questions, we are asking about skin-checks that you or someone helping you may have done. This would not include skin exams that may have been performed by your regular healthcare provider or any other provider.

B1. In the past 12 months, have you noticed any moles that have any of the following characteristics? (Please select all that apply)

- Asymmetrical (half of the mole looks different from the other half)
- Border irregularities (the outside edges of the mole are not round)
- Color differences (more than one color, for example different colors of tan and brown, red, black, blue/gray, or white)
- Diameter is bigger than ¼ inch or 6 mm (equal to or wider than the size of a pencil head eraser)
- Evolving (changed size, color or shape)
- New mole (that wasn't there before)
- Looks different from other moles around it
- I have not noticed any moles with the above characteristics

B2. In the past 12 months, have you noticed any of the following characteristics anywhere on your skin? (Please select all that apply)

- An unexplained whitish scar-like area
- A shiny bump or nodule
- A reddish patch or irritated area
- A persistent non-healing sore
- A pink growth with a slightly elevated rolled border and crusted indentation in the center
- None of the above characteristics

→ **Go to Question C1a. on page 4.**

B3. In the past 12 months, what did you do the first time you noticed any of the these characteristics from B1 and/or B2 on your skin? (Select all that apply)

- Contacted my regular healthcare provider for a skin exam
- Contacted my dermatologist for a skin exam
- Asked someone else to look at it (a partner, close relative, or friend)
- Looked at the ASK study materials to compare my mole or spot
- Decided to watch to see if it changed before taking any action
- Decided to wait until my next appointment with my regular healthcare provider to talk to him/her about it
- Other

If Other, please specify.

HIPAA Authorization Form

If you sign this form, you are giving St. Jude Children's Research Hospital permission to use or disclose (give out) medical information. It will allow St. Jude and LTFU Researchers to get copies of certain parts of your (your child's) medical record that we may need to review, such as treatment history for your (your child's) childhood illness, records for later illnesses, or health screenings.

LONG-TERM FOLLOW-UP STUDY HIPAA¹ AUTHORIZATION TO USE AND DISCLOSE HEALTH INFORMATION FOR RESEARCH

- 1. Purpose.** As a research participant and at my request, I give Greg Armstrong, M.D., M.S.C.E., and the researcher's staff permission to use and disclose my (my child's) health information for a research project called Long-Term Follow-Up (LTFU) Study.
- 2. Individual Health Information to be Used or Disclosed.** My (My child's) health information that may be used or disclosed for this research may include my (my child's) medical records.
- 3. Who May Disclose My (My Child's) Health Information?** During this study, my (my child's) health care information may be released to the researcher and the researcher's staff by the hospitals, clinics, and health care providers who have treated me.
- 4. Who May Receive My (My Child's) Health Information?** The health information disclosed by researchers and information given by me during the research study may be received and used by Greg Armstrong, M.D., M.S.C.E., the researcher's staff, LTFU collaborators, the LTFU Biopathology Center (Columbus, OH), the LTFU Biorepository (Cincinnati, OH), the LTFU Radiation Physics Center (Houston, TX), the LTFU Statistical Center (Seattle, WA), the Memorial Sloan-Kettering Cancer Center (NY, NY), the Dana Farber Cancer Institute (Boston, MA), ClientTell (Valdosta, GA), and the Harvard T.H. Chan School of Public Health (Boston, MA).
- 5. Right to Refuse to Sign this Authorization.** I do not have to sign this form. If I decide not to sign the form, I may not be allowed to take part in this study. However, my decision not to sign this form will not affect any other treatment, payment, or enrollment in health plans or eligibility for benefits.
- 6. Right to Revoke.** I can change my mind and revoke (take back) this authorization (permission) at any time by sending a written notice of my decision to Dr. Greg Armstrong, St. Jude Children's Research Hospital, Department of Epidemiology and Cancer Control, 262 Danny Thomas Place, Memphis, TN 38105. If I take back my permission, the researcher may use and disclose only the protected health information already collected for the research study. No further health information about me will be collected by the researcher or disclosed to the researcher for this study.
- 7. Possible Re-disclosure.** After my (my child's) health information is given out under this authorization form, there is a chance that it might be re-disclosed outside this study and no longer covered by this form. However, I understand that the research team and the St. Jude Institutional Review Board (IRB) are very careful to protect my (my child's) privacy and limit the use of information that can identify me (my child). (The IRB is the committee that reviews studies to be sure that the rights and safety of those taking part in the study are protected.) In addition, the LTFU study maintains a Certificate of Confidentiality from the National Institute of Health to protect the identity of research subjects.

For those taking part in the research study who are not legal adults, this authorization form will expire when they become legal adults (unless the person taking part in the study has appointed a legal guardian to provided authorization). A new form will be required when the child becomes a legal adult. For a legal adult taking part in this study, this authorization (permission) expires at the end of the study.

I am the research participant, or I am legally authorized to act on behalf of the person taking part in the study.

I have read this information and have received a copy of the form.
