Finding cures. Saving children.

Thank you for participating in the Long-Term Follow-Up study as a brother or sister of an individual treated for childhood cancer, leukemia, tumor or a similar illness. Your participation helps to provide us with valuable information in the fight against these serious illnesses of childhood and adolescence.

You can be assured that we will respect your privacy at all times. Your name or other identifiers will not be used in any report of our findings, or released to any person or agency, except study investigators.

Your generosity in participating is greatly appreciated.

Sincerely,

The LTFU study staff

LTFU Consent Form

This form is an informed consent statement that requires your signature if you wish to participate in the study. Please review the following three pages and sign and date at the yellow arrows.

! Watch for this symbol - it indicates that you need to do something at this point in the consent.

INFORMED CONSENT STATEMENT

LONG-TERM FOLLOW-UP STUDY

We would like to invite you to take part in the Long-Term Follow-Up Study (LTFU) being conducted by St. Jude Children's Research Hospital. This consent form gives you information about the research study. If you agree to take part, you can complete the consent process via the LTFU website or sign this consent document and return it in the self-addressed, stamped envelope you received. The second consent document is a copy for you to keep or you can print a copy from the website.

Before you learn about the study, it is important that you know the following:

- Whether or not you take part in this study is entirely up to you.
- If you decide not to be in the study, or to withdraw from the study at any time, it will not affect your relationship with St. Jude or with the original treating institution.
- This study is being sponsored (receiving financial support to offset a portion of the costs of the study) by the National Cancer Institute.
- The principal investigator (researcher) of this study is Dr. Leslie Robison, who can be reached at 800-775-2167.
- Your study information will be shared with researchers at St. Jude Children's Research Hospital, the LTFU Biopathology Center (Columbus, OH), LTFU Laboratory (Cincinnati, OH), LTFU Statistical Center (Seattle, WA), LTFU Radiation Physics Center (Houston, TX) and LTFU collaborating researchers.

Why is this study being done?

The purpose of this study is to learn about the health of persons who were treated for cancer, leukemia, tumors, or other similar illnesses as children, compared to their siblings (brothers and sisters). We are interested in studying the risk (chance) of second cancers, long-term side effects of chemotherapy and radiation therapy, and your family history of cancer. The information we collect will be used to make recommendations for the treatment and follow-up of future children who are diagnosed with cancer or a similar illness.

How many patients will take part in the study?

About 30,000 people from around the United States and Canada, who were treated as children for cancer or a similar illness, will take part in this study. Additionally, about 8,000 siblings will participate as a study comparison group.

What is involved in this study?

You will complete a set of questions about your health. Answering all of the questions will take about 45 minutes. You may leave blank any questions you are uncomfortable answering. The questionnaire can be completed over the internet at our website or by completing the questionnaire and returning it in the stamped, self-addressed envelope you received. You may also complete it over the phone with a trained interviewer.

The collected information will be entered into a computer for comparison with people who were treated as children for cancer or a similar illness. All of the information collected in this study will be kept private and participants will not be identified in any study reports.

Based on questionnaire answers, you may be contacted in the future to complete additional questionnaires.

This is a long-term study of childhood survivors of cancer or similar illnesses. In the future, you will receive a shorter questionnaire in the mail every other year until the study is finished.

What are the consequences of withdrawing from this study?

You can stop taking part in this study at any time. Whether or not you take part in this study will not affect your relationship with St. Jude or the original treating institution.

What are the risks of the study?

Very rarely, personal information from your records could be given out by accident. To prevent this from happening, electronic data is stored on password protected computers, only study team members work with the data, and study results are reported on the whole group, never identifying one individual in reports. You may become upset by some survey questions and do not have to answer any question that makes you uncomfortable.

What are the benefits of the study?

You may or may not receive a direct benefit from taking part in this study. The information we collect may help us make recommendations for the treatment and follow-up of future children who are diagnosed with cancer or a similar illness.

What other options are there?

Your participation in this study is voluntary. You may choose not to take part in this study.

What about new information?

You will be told of any new information learned during the course of the study, which might cause you to change your mind about staying in the study. You will receive a CCSS Newsletter every six months that contains a study update and other health information that may be helpful to yourself as well as people who were treated for cancer or similar illness. You have the right to learn about the results of the study. If you are interested in learning more about when and how to get the results of this research study, you may contact Dr. Leslie Robison at 901/595-3300 or Dr. Greg Armstrong, Project Director at St. Jude Children's Research Hospital, at 800/775-2167.

What about privacy?

To help us protect your privacy, we have obtained a Certificate of Confidentiality from the federal government. With this Certificate, the researchers cannot be forced to give out your personal information, even by a court subpoena, in any federal, state, or local civil, criminal, administrative, legislative, or other process. The researchers will use the Certificate to block any demands for information that would identify you, except in the cases listed below.
The Certificate cannot be used to resist a demand for information from the United States Government, if that information is used to audit or check federally funded projects or to meet the needs of the U.S. Food and Drug Administration (FDA).

You should know that a Certificate of Confidentiality does not keep you or a member of your family from choosing to give out information about you or your part in this research. If an insurer, employer, or other person gets your written consent to receive research information, then the researchers cannot use the Certificate to keep that information private.

The Certificate of Confidentiality will not keep researchers or hospital staff from making reports required of them. These include reports about suspected child abuse, about diseases that spread from person to person, or about possible threat of harm to yourself or others.

Government agencies oversee research studies involving people. Your research records may be reviewed by the following:

- Food and Drug Administration (FDA)
- National Institutes of Health (NIH)
- Office of Human Research Protection (OHRP)
- St. Jude Children's Research Hospital Institutional Review Board, a committee that reviews the ethics and safety of research studies

By signing this consent form, you are allowing your research records to be reviewed by these persons.

Where can I get more information?

If you have questions regarding this study you may contact the St. Jude Principal Investigator for this study, Dr. Leslie Robison, at 901/595-3300 or Dr. Greg Armstrong, Project Director at St. Jude Children's Research Hospital, at 800/775-2167.

You can get more information about your rights as a research participant by calling the Chairman of the St. Jude Institutional Review Board at 901/595-4357 or the St. Jude Research Participant Advocate (Ombudsman) at 901/595-4644. If you live outside of the Memphis area, you may call 1-866-583-3472 (1-866-JUDE IRB). This is a toll-free call.

IRB Approved Version: July 19, 2011
The following statement describes your/your child's rights as a research participant:

1. You may talk as much as you want with the researchers about the reasons for this study and about its risks.

2. This study may have risks that the researchers or other doctors do not know about now.

3. We may use your information to develop a new product or medical test to be sold. The sponsor, hospital, and researchers may benefit if this happens. There are no plans to pay you if your information is used for this purpose.

4. You will not be charged for being in this research study.

5. If you decide not to be in the study, or to withdraw from the study at any time, it will not affect your relationship with St. Jude.

6. The St. Jude Notice of Privacy Practices tells how your medical information may be used or given to someone outside the hospital. You have the right to read the Notice of Privacy Practices before you sign this form. You can find it at the bottom of every page on the St. Jude Internet website: *www.stjude.org*.

7. You have the right to see, copy, and ask for changes to your protected health information that will be used or given out. This consent form describes any limits to this right, such as research information that you will not see until the end of the study or that will only be used for research.

8. A description of this clinical trial will be available on http://www.ClinicalTrials.gov, as required by U.S. Law. This Website will not include information that can identify you. At most the Website will include a summary of the results. You can search this Website at any time.

9. Federal agencies such as the Food and Drug Administration (FDA), the Office of Human Research Protections (OHRP) or the National Institutes of Health (NIH), St. Jude Children's Research Hospital Institutional Review Board (IRB), as well as other regulatory agencies, committees, or persons involved in overseeing research studies, may review your research and medical record.

10. Information about you collected as part of this study may be given out as explained in this informed consent form.

11. After your records are given to or used by others, St. Jude Children's Research Hospital cannot promise that information will not be given out again. Also, the information given out may no longer be protected by federal privacy laws.

12. St. Jude uses reasonable safeguards and means to protect the security and confidentiality of e-mail/text messaging, fax information or mail sent to and received from you. However, St. Jude cannot guarantee the security and confidentiality of e-mail or text messaging or fax communications or mail. Despite the best efforts of St. Jude to protect private information, e-mails/text messaging or fax can be electronically taken by other users, changed, forwarded, or used without permission or detection. Possible risks include e-mail/text messaging, fax or mail senders can type the wrong address for an e-mail or mail or dial a wrong phone number. Backup copies of an e-mail/text messaging or fax may exist after the sender or receiver has deleted a copy.

13. Permission to use and give out your child's protected health information will end when your child turns 18 years of age (if applicable). At that time, researchers may get your child's consent if they wish to keep using or giving out your child's protected health information.

14. You may take back permission for your records to be used or given out at any time, for any reason, except the following:
    - When that information has already been given out or used based on your permission
    - When the information is needed to maintain the integrity of the study

15. To take back your permission, please fill out a form called a Revocation of Release of Authorization. You may ask for this form by calling the St. Jude Privacy Officer at 901-595-6141. You must mail the form or hand it to the:
    HIPAA Privacy Officer
    St. Jude Children's Research Hospital
    262 Danny Thomas Place
    Memphis, TN 38105

16. If you have more questions about this study, you can call the Principal Investigator of this study, Dr. Leslie Robison, at 901-595-3300.

17. You can get more details about your rights as a research participant by calling the chairman of the Institutional Review Board at 901-595-4357 or the Research Participant Advocate at 901-595-4644. If you are outside of the Memphis area, please call toll-free 1-866-583-3472 (1-866-JUDE IRB).

The staff will give you a copy of this statement.

RESEARCH PARTICIPANT STATEMENT

I have read (or have had read to me) the contents of this document and have been encouraged to ask questions. I have received answers to my questions. I give consent to take part in this research study and authorize the disclosure and use of my/my child's protected health information for the purposes of that research.

HIPAA Authorization Form

If you sign this form, you are giving St. Jude Children's Research Hospital permission to use or disclose (give out) medical information. It will allow St. Jude to get copies of certain parts of your (your child's) medical record that we may need to review, such as treatment history for your (your child's) childhood illness or records for later illnesses.

LONG-TERM FOLLOW-UP STUDY
HIPAA[1] AUTHORIZATION TO USE AND DISCLOSE
HEALTH INFORMATION FOR RESEARCH

1. Purpose. As a research participant and at my request, I give Greg Armstrong, M.D., M.S.C.E., and the researcher's staff permission to use and disclose my (my child's) health information for a research project called Long-Term Follow-Up (LTFU) Study.

2. Individual Health Information to be Used or Disclosed. My (My child's) health information that may be used or disclosed for this research may include my (my child's) medical records.

3. Who May Disclose My (My Child's) Health Information? During this study, the researcher and the researcher's staff may get my (my child's) health information from hospitals, clinics, and health care providers who have treated me.

4. Who May Receive My (My Child's) Health Information? The health information disclosed by researchers and information given by me during the research study may be received and used by Greg Armstrong, M.D., M.S.C.E., the researcher's staff, LTFU collaborators, the LTFU Biopathology Center (Columbus, OH), the LTFU Biorepository (Cincinnati, OH), the LTFU Radiation Physics Center (Houston, TX), and the LTFU Statistical Center (Seattle, WA).

5. Right to Refuse to Sign this Authorization. I do not have to sign this form. If I decide not to sign the form, I may not be allowed to take part in this study. However, my decision not to sign this form will not affect any other treatment, payment, or enrollment in health plans or eligibility for benefits.

6. Right to Revoke. I can change my mind and revoke (take back) this authorization (permission) at any time by sending a written notice of my decision to Dr. Greg Armstrong, St. Jude Children's Research Hospital, Department of Epidemiology and Cancer Control, 262 Danny Thomas Place, Memphis, TN 38105. If I take back my permission, the researcher may use and disclose only the protected health information already collected for the research study. No further health information about me will be collected by the researcher or disclosed to the researcher for this study.

7. Possible Re-disclosure. After my (my child's) health information is given out under this authorization form, there is a chance that it might be re-disclosed outside this study and no longer covered by this form. However, I understand that the research team and the St. Jude Institutional Review Board (IRB) are very careful to protect my (my child's) privacy and limit the use of information that can identify me (my child). (The IRB is the committee that reviews studies to be sure that the rights and safety of those taking part in the study are protected). In addition, the LTFU study maintains a Certificate of Confidentiality from the National Institute of Health to protect the identity of research subjects.

For those taking part in the research study who are not legal adults, this authorization form will expire when they become legal adults (unless the person taking part in the study has appointed a legal guardian to provided authorization). A new form will be required when the child becomes a legal adult. For a legal adult taking part in this study, this authorization (permission) expires at the end of the study.

I am the research participant, or I am legally authorized to act on behalf of the person taking part in the study.

I have read this information and have received a copy of the form.

Medical Conditions

The next series of questions relate to medical conditions that have ever occurred in your lifetime.

Please indicate, by marking the box (either "No", "Yes", or "Not sure"), if a doctor or other health care professional has told you that you have or have had any of the following conditions. In addition, please give your approximate age when the condition first occurred. (If more than one occurrence, please give age at first occurrence.)

Because we need definite responses, it is very important to mark an answer for each question, even if you have never had that condition. Please do not leave any questions blank (unmarked).
