STROKE SURVEY

Dear <Proxy name>,

We are writing to you with regard to <participant's name>'s participation in the Long-Term Follow-Up Study (LTFU). We share in your loss of <participant's name>. Our goal is to improve the treatment of childhood cancer and maximize the health of cancer survivors. To accomplish this goal, in 1994 we established the LTFU Study with 26 participating cancer centers from around the United States and Canada.

On a previous study questionnaire we learned that <participant's name> may have had a stroke. We are contacting you to learn more about the nature and severity of stroke-related problems that have been reported by study participants.

We ask that you please complete this brief questionnaire and return it to us in the enclosed postage-paid envelope within 2 weeks. If you prefer, you can complete the questionnaire online at www.stjude.org/strokesurveyproxy. Your user ID is <randcode> and your password is sparticipant's name>'s date of birth. If you need any assistance, please call us at 1-800-775-2167 or email us at LTFU@stjude.org.

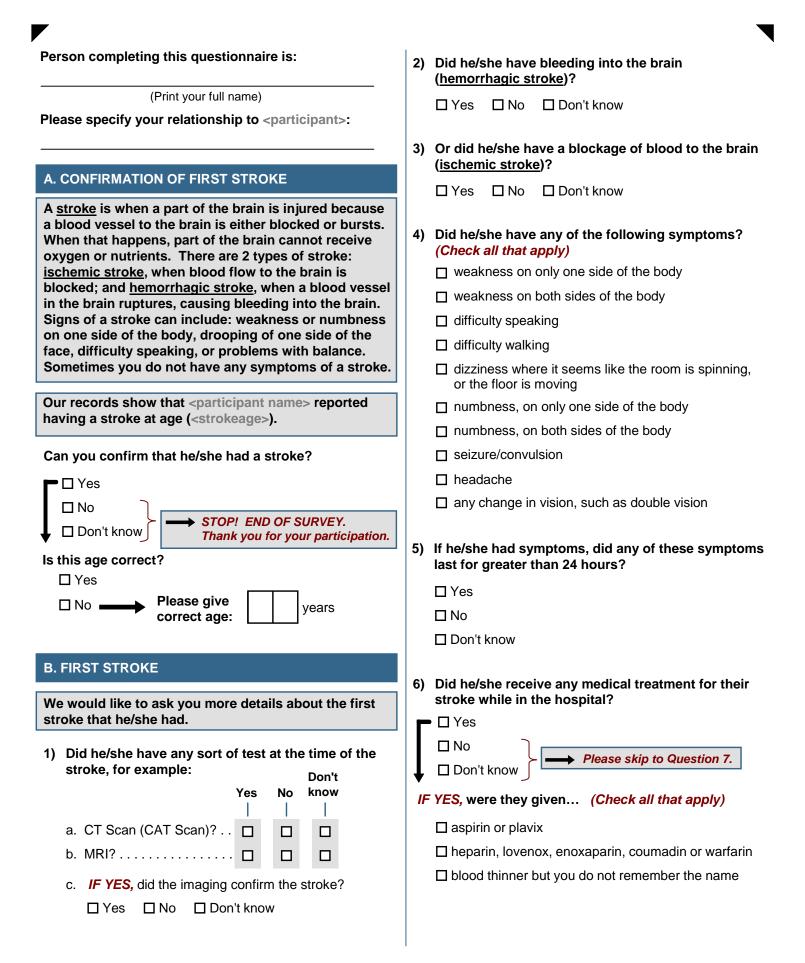

Your participation is voluntary. All information collected for this study is confidential and you can be assured that we will respect <participant's name>'s and your privacy at all times. Names or other identifiers will not be used in any report of our findings, or released to any person or agency, except study investigators.

We would like to thank you, on <participant's name>'s behalf, for the information which you've already shared and will hopefully share in the near future. While your and <participant's name>'s information will always remain private, your efforts are appreciated by past, present, and future survivors everywhere.

With our sincerest gratitude,

Leslie L. Robison, Ph.D. Principal Investigator, Long Term Follow-Up Study Director, Epidemiology and Cancer Control St. Jude Children's Research Hospital
